

It's One Hot Summer

When I sat down to draft this note, our Chicago office still had snow, while Atlanta's trees had just turned green. Now it feels like the newly installed windows in our offices here are melting from the heat.

It's been hot for another reason. Along with managing our litigation docket, we've been working at breakneck speed, preparing and arguing two Federal Circuit cases back-to-back after the July 4 break while preparing for thirteen (!) IPRs and IPR appeals. Phew!

AddyHart has grown to nine attorneys—with three joining this past year. Notable among these is [Brandon Helms](#), an IP litigator with extensive experience in pharmaceutical patent cases, including ANDA litigation.

For the last eight years an Assistant US Attorney with the Department of Justice, he brings us deep experience in taking cases to trial as well as prosecuting civil and criminal cases.

Brandon joins our select group of experienced lawyers, which includes standout IP litigators from AmLaw 100 firms and specialist IP firms, and former senior in-house counsel. In this past year, AddyHart's attorneys have been counsel of record for clients in 54 contentious matters:

- 16 appeals at the US Court of Appeals for the Federal Circuit;
- 17 cases in US district courts and in the US Court of Federal Claims (CFC) (with three more pending);
- 17 proceedings at the Patent Trial and Appeal Board of the USPTO (PTAB);
- Two cases at the USPTO's Trademark Trial and Appeal Board (TTAB); and,
- Two state court actions

In other news, AddyHart represented Philip Morris USA in a patent infringement suit filed by Healthier Choices over e-cigarette patents in 2020, winning on a motion to dismiss because the plaintiff failed to sufficiently plead infringement and pleaded evidence that contradicted its infringement claims; the court awarded our client \$575,000 in legal fees and expenses. We concluded an arbitration proceeding resulting in an outcome favorable to our client. And in a separate matter, partner Chad Pannell III was appointed Special Master in US district court in Georgia.

We're recognized for our Federal Circuit expertise. We've handled multiple cases in the PTAB, the CFC, and the TTAB, along with hundreds of cases in the US district courts. We represent clients with cutting-edge technologies in specialized cases, from companies in the Fortune 1000 to entrepreneurial businesses, including patentees and defendants. And we continue to negotiate licenses and provide IP asset management counsel to companies worldwide.

Below are some snapshots of other achievements and successes. We trust you too are productively busy. Don't hesitate to [send us updates!](#) Stay cool!

CURRENT CASES & MATTERS

Fighting Hard for Wildcat

Patent Licensor Battles GM, Atlas, Others on Infringement

AddyHart is representing manufacturing and assembly patentee Wildcat Licensing on appeal of two PTAB decisions on obviousness favoring petitioners General Motors LLC; Atlas Copco Tools and Assembly Systems, LLC; Magna International; and Faurecia Automotive Seating. Wildcat maintains petitioners are infringing its patented technology.

Thales Flies High After Settlement with US Govt.

Ends 7-Year Battle over Helmet-Mounted Display Systems

After successive favorable decisions for our client Thales Visionix in the Court of Federal Claims, the PTAB, and at the Federal Circuit, AddyHart in Q4 2021 [finalized a multimillion dollar settlement](#) with the US over for patent infringement claims relating to helmet-mounted displays for the F-35 Joint Strike Fighter. AddyHart also handles multiple indemnity obligations for long-time client Thales DIS AIS, including district court litigations and prosecuting a [remaining 13 of 15 inter partes reviews](#) at the PTAB.

Cooperative Entertainment Argues at Fed. Cir.

Peer-to-Peer Content Distributor Seeks Redress on Appeal

Cooperative Entertainment, Inc. is the patent-holder on innovative technology that allows for streaming live programming while reducing network traffic and the load on an originating content server. CE retained AddyHart to represent it on appeal of an adverse decision on 35 U.S.C. § 101 that its innovations were not patent-eligible. We argued the case at the Federal Circuit in July 2022; the parties await the Court's decision.

Sensor Tech Inventor NetzVision in Arbitration

Patentee in JAMS Arbitration against Lockheed Martin for Breach

AddyHart is representing infrared sensor and semiconductor component technology inventor Shimon Maimon of NetzVision in binding arbitration in JAMS against Lockheed Martin Corp., for breach of its licensing agreement and consequent patent infringement, after Lockheed ceased paying agreed-on royalties.

Defense Contractor Joins Case Against Meta

Originator of Motion Detection Tech under License as Plaintiff

AddyHart is representing a global defense, security, and communications technologies company as an involuntary plaintiff against the company formerly known as Facebook, in a case concerning five patents and over 100 patent claims related to motion detection. After a Markman briefing in the W.D. of Texas, the court granted Meta's motion to transfer venue to N.D. Cal.

Going Global, Getting Results

AddyHart Extends Reach Worldwide in Patent Infringement Actions

Alongside our work for Paris-based international defense, digital security and avionics provider Thales, which has subsidiaries in the US and worldwide, AddyHart has engagements for litigations on behalf of conglomerates based in Europe, Asia, and Mexico. Clients Sidel Inc. (formerly Gebo Cermex) and Novemba are subsidiaries of Switzerland's Tetra Laval group, which operates globally in food and beverage processing, packaging, and distribution. Orbia, a Mexican conglomerate named to Fast Company's 2020 List of the World's Most Innovative Companies, is a global leader in specialty products and infrastructure solutions. Other international clients' work is described below.

Dental Restructuring Innovator Defends IP

Pursues Infringers of Dental Imaging & Restoration Technology

Canadian dental imaging and dental restructuring technology company Centre de Recherche Médico Dentaire has patent assets throughout North America and Europe. CRMD retained AddyHart to enforce its patents against competitors in the Americas and Europe. Parties to some actions are completing damages discovery and have agreed to mediation.

Gaming Company Defends Trademark at USPTO

Competitor DraftKings Files Opposition to Application

The US subsidiary of an overseas-based online gaming company is engaged in a dispute with competitor gaming company DraftKings over the latter's having filed in 2020 an opposition to the former's application to register a mark with the US Patent and Trademark Office. Our client asked us to represent it in the opposition proceeding; AddyHart co-founder Robert Hart leads the team. The parties are pursuing discovery.

PEOPLE NEWS
